

Smac Talk:

Student learning is a shared responsibility between schools and parents. Technology is transforming how and where students learn. The classroom has been extended to any location with an internet connection. As students spend more time learning and socializing online, we all need to work together to ensure our students stay healthy and safe. The Social Media Awareness Campaign (SMACtalk) was formed in response to this need. The purpose of SMACtalk is to bring awareness, provide resources, and increase communication for teachers, parents, and students.
